PRATIK PATIDAR

MERN Stack Developer • MongoDB • Express.js • React.js • Node.js

Indore, India • pratikpatidar7990@gmail.com • +91 8269647990 • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

MERN Stack Developer with 1.5+ years of production experience building full-stack web applications with MongoDB, Express.js, React.js, and Node.js. Proficient in architecting RESTful services, implementing JWT authentication with refresh tokens, designing scalable MongoDB schemas, and developing reactive frontends with Next.js and Tailwind CSS.

TECHNICAL SKILLS

MERN Core:	MongoDB, Express.js, React.js, Node.js, TypeScript, JavaScript (ES6+)
Frontend & UI:	Next.js (App Router), Tailwind CSS, Redux Toolkit, React Hook Form, HTML5, CSS3
Backend & APIs:	RESTful API Architecture, Mongoose ODM, NestJS, Middleware, Express Routing
Auth & Security:	JWT Authentication (HttpOnly cookies), Password Hashing (bcrypt), CORS, Role-Based Access
DevOps & Tooling:	Git, GitLab CI/CD, Vite, Postman, Vercel, npm/yarn, Lighthouse Performance

PROFESSIONAL EXPERIENCE

Techstuff Private Limited — **May 2025 – Present**
Frontend Engineer — *Indore, India*

- Developed full-stack MERN software modules for enterprise client platforms, writing modular React frontends and Node.js/Express API services.
- Designed and implemented 20+ REST API endpoints with Mongoose schema validation, error-handling middleware, and JWT authentication.
- Engineered MongoDB aggregation queries for data filtering, sorting, and reporting, reducing server-side payload sizes and response latency.
- Built responsive, accessible user interfaces in React.js and Next.js, adhering strictly to Figma design specifications.
- Reduced frontend bundle size by 40% using route-based code splitting and lazy loading; implemented client caching with Redux Toolkit.

Techstuff Private Limited — **Feb 2025 – May 2025**
Frontend Developer Intern — *Indore, India*

- Assisted in developing Node.js backend endpoints and connected Mongoose models for internal company productivity tools.
- Built responsive UI views in React.js with Tailwind CSS, ensuring clean cross-device rendering on mobile, tablet, and desktop.
- Followed standard Git/GitLab workflows including branch protection, merge request reviews, and continuous integration deployments.

KEY PRODUCTION PROJECTS

Mercanis — B2B Procurement Platform — Enterprise Client Project

Stack: SvelteKit · Next.js · TypeScript · NestJS · MongoDB

- Full-stack MERN contributor for B2B procurement platform; built reactive user interfaces and connected Node.js/MongoDB microservices.
- Created supplier onboarding forms with dynamic document uploads, field validation, and status tracking dashboards.
- Optimized catalog browsing with server-side pagination, index-backed search, and virtualized list rendering.

Payroll & HR Management Platform — Internal Enterprise SaaS

Stack: Next.js · TypeScript · NestJS · MongoDB · MCP

- Engineered internal enterprise SaaS application for company payroll, leave tracking, and attendance records.
- Built secure authentication flow using JWT with HttpOnly cookies, refresh token rotation, and role-based permissions.
- Integrated Model Context Protocol (MCP) server for automated calendar and scheduling integrations.

EduMiracle — Coaching ERP Portal — Full-Stack EdTech

Stack: Next.js · TypeScript · Tailwind CSS · MongoDB · Gemini AI

- Built complete full-stack ERP for education institute: student enrollment, fee records, attendance, and exam simulator.
- Structured MongoDB database with relational referencing across student, course, and exam performance collections.
- Integrated Gemini AI API for intelligent doubt resolution and automated query assistance with admin oversight.

EDUCATION

B.Tech in Computer Science & Engineering — **2020 – 2024**
Barkatullah University Institute of Technology (BUIT), Bhopal — **CGPA: 7.89 / 10**
