PRATIK PATIDAR

Frontend Engineer • React.js • Next.js • TypeScript

Indore, India • pratikpatidar7990@gmail.com • +91 8269647990 • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Frontend Engineer with 1.5+ years of production experience building responsive, high-performance web applications using React.js, Next.js, and TypeScript. Core contributor to B2B enterprise SaaS products and client portals, taking features from Figma designs to production deployment. Reduced initial bundle size by 40% using code splitting, dynamic imports, and virtualized lists. Strong eye for UI/UX consistency, clean component architecture, and seamless RESTful API integration.

TECHNICAL SKILLS

Languages & Core:	TypeScript, JavaScript (ES6+), HTML5, CSS3, JSON
Frontend & Frameworks:	React.js (v18), Next.js (App Router, SSR/SSG), SvelteKit, Tailwind CSS, CSS Modules
State & Forms:	Redux Toolkit, Context API, React Hook Form, Zod, Svelte Stores
Backend & APIs:	RESTful API Integration, Node.js, Express.js basics, Postman, JWT handling
Tools & Performance:	Git, GitLab CI/CD, Vite, Webpack, Lighthouse, Web Vitals, Virtualization, Figma

PROFESSIONAL EXPERIENCE

Techstuff Private Limited — **May 2025 – Present**
Frontend Engineer — *Indore, India*

- Engineered core frontend features for Mercanis (B2B SaaS Procurement platform) using SvelteKit, Next.js, and TypeScript, delivering accessible and responsive user interfaces.
- Collaborated closely with backend engineers to define REST API contracts, request payloads, and error-handling schemas prior to implementation, reducing integration friction.
- Built a 20+ reusable UI component system (data tables, filter drawers, search bars, modals) utilized across 3 enterprise applications, standardizing design consistency.
- Optimized frontend performance and Lighthouse score from 68 to 94 by implementing route-based lazy loading, image optimization, dynamic imports, and DOM virtualization on large data grids.
- Handled complex client-side state transitions with Redux Toolkit and React Hook Form, ensuring real-time form validation with Zod and zero UI stutter.

Techstuff Private Limited — **Feb 2025 – May 2025**
Frontend Developer Intern — *Indore, India*

- Built modular, accessible UI components from Figma design specs using React.js, Tailwind CSS, and CSS Modules.
- Integrated third-party RESTful APIs and authentication endpoints, implementing secure token handling and persistent login sessions.
- Conducted cross-browser compatibility testing across Chrome, Firefox, and Safari, fixing layout glitches and reducing QA bug tickets by 25%.

KEY PRODUCTION PROJECTS

Mercanis — B2B Procurement Platform — Enterprise Client Project
Stack: SvelteKit · Next.js · TypeScript · NestJS · MongoDB

- Built interactive procurement workflows, catalog management, and supplier evaluation modules used by enterprise procurement teams.
- Created high-density data tables with multi-column sorting, debounced global search, and virtualized scrolling handling 5,000+ line items seamlessly.
- Integrated secure REST API endpoints with optimistic UI updates and toast notifications for asynchronous actions.

Payroll & HR Management Platform — Internal Enterprise SaaS
Stack: Next.js · TypeScript · NestJS · MongoDB · MCP

- Developed responsive frontend modules for internal company HR operations: employee directory, leave tracker, and salary disbursement records.
- Designed clean client-side state architecture using Context API and Redux Toolkit with persistent local caching for offline capability.
- Built a custom Model Context Protocol (MCP) tool integration connecting internal employee calendar events to assistant workflows.

EduMiracle — Coaching ERP Portal — Full-Stack EdTech
Stack: Next.js · TypeScript · Tailwind CSS · MongoDB · Gemini AI

- Architected and deployed a full-stack coaching institute ERP managing student registrations, fee tracking, and live classroom attendance.
- Integrated interactive exam performance analytics using Recharts, giving students graphical score breakdowns and percentile comparisons.
- Implemented automated AI doubt-clearing assistant powered by Gemini API with rate-limiting and administrative monitoring.

EDUCATION

B.Tech in Computer Science & Engineering — **2020 – 2024**
Barkatullah University Institute of Technology (BUIT), Bhopal — **CGPA: 7.89 / 10**
