PRATIK PATIDAR

Software Development Engineer | React.js • Next.js • TypeScript • AI Integrations • Web Systems

Indore, MP, India • pratikpatidar7990@gmail.com • +91 8269647990 • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Software Development Engineer with around 2 years of experience in building scalable web applications, reusable UI design systems, and AI-powered workflows. Proficient in JavaScript (ES6+), React.js, Next.js, TypeScript, REST API integration, and SQL databases. Strong foundation in software engineering principles, web performance optimization (code splitting, virtualization, cross-browser support), and SDLC with Git/CI-CD. Hands-on experience integrating AI assistants (Model Context Protocol, LLM APIs). Available to join immediately.

TECHNICAL SKILLS

Core Languages:	JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL, C/C++ (Foundational)
Frontend & Web:	React.js, Next.js (App Router, SSR), SvelteKit, Redux, Context API, Tailwind CSS, Component Libraries
AI & Integrations:	Model Context Protocol (MCP), LLM APIs (OpenRouter, OpenAI), AI Agent Workflows, n8n Automation
Performance & Testing:	Code Splitting, Lazy Loading, Dynamic Imports, Grid Virtualization, Lighthouse, Jest, Cross-browser Testing
APIs & Databases:	RESTful API Design & Integration, PostgreSQL, SQL, HttpOnly Auth Flow, WebSockets
Workflow & Tools:	Git, GitLab CI/CD, Vite, Figma, Postman, Jira, Agile/Scrum, ESLint, Chrome DevTools

PROFESSIONAL EXPERIENCE

Frontend / Software Development Engineer — Techstuff Private Limited — May 2025 – Present | Indore, India

- Engineered core features on **Mercanis**, a high-volume B2B SaaS procurement platform (SvelteKit/TypeScript), and an enterprise Next.js payroll system.
- Architected an in-house shared component library of **20+ reusable UI components** (forms, data tables, modals, navigation) adopted across enterprise modules.
- Optimized web performance, reducing initial JavaScript bundle size by **~40%** via lazy loading, route code-splitting, and virtualized scheduling grids.
- Integrated AI automation capabilities into the internal portal: engineered custom **Model Context Protocol (MCP)** tools and LLM integrations via OpenRouter.
- Collaborated with backend engineers to consume REST APIs, enforce secure session handling (HttpOnly cookies, JWT), and handle complex asynchronous state via Redux/Context.
- Streamlined software delivery lifecycle (SDLC) through Jira, code reviews, GitLab merge requests, and CI/CD pipelines, shipping 8+ production features with zero regression.

Software Engineering Intern — Techstuff Private Limited — Feb 2025 – May 2025 | Indore, India

- Developed modular, accessible React.js/TypeScript UI components from Figma design specs, maintaining high cross-browser fidelity.
- Integrated REST APIs into client-facing modules and debugged QA-reported issues, decreasing defect turnaround time across sprints.
- Mastered professional version control workflows: git feature branching, pull request reviews, and collaborative team releases.

KEY ENGINEERING PROJECTS

Enterprise HR & Payroll Web Platform *(Next.js, TypeScript, Redux, Context API, MCP, LLMs)*

- Engineered enterprise dashboard for attendance, leave management, and candidate tracking, syncing filter states to URL search parameters for persistent views.
- Built intelligent assistant integrations leveraging Model Context Protocol (MCP) and LLM APIs to automate internal candidate parsing and leave query resolutions.

Mercanis — B2B SaaS Enterprise Procurement Platform *(SvelteKit, TypeScript, REST APIs, Virtualization)*

- Contributed to mission-critical procurement workflows used daily by enterprise teams, converting complex business requirements into performant UI.
- Implemented virtualized data grids to render 10,000+ real-time records smoothly, eliminating DOM lag and memory bottlenecks.

EduMiracle — Student Analytics & CBT Portal *(Next.js 16, TypeScript, Tailwind CSS, Recharts)*

- Designed and deployed an end-to-end educational portal featuring computer-based test (CBT) simulator and interactive analytics dashboards deployed on Vercel.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering — Barkatullah University Institute of Technology (BUIT), Bhopal — 2020 – 2024 | **CGPA: 7.89 / 10**
