PRATIK PATIDAR

Frontend Engineer | React.js • Next.js • TypeScript • UI/UX Architecture

Indore, Madhya Pradesh, India • pratikpatidar7990@gmail.com • +91 8269647990 • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Frontend Engineer with 2+ years of experience developing responsive, accessible, and high-performance web applications using React.js, Next.js, TypeScript, and modern CSS frameworks. Adept at turning complex UI/UX designs into modular frontend architectures, structuring reusable component design systems, and connecting client applications to RESTful services. Strong focus on clean code, web accessibility (a11y), browser performance, and cross-functional Agile collaboration.

TECHNICAL SKILLS

Frontend Core:	TypeScript, JavaScript (ES6+), HTML5 Semantic Markup, CSS3, DOM Manipulation
Frameworks & Libs:	React.js (v18), Next.js (App Router, SSR, SSG), SvelteKit, Tailwind CSS, CSS Modules
State & Validation:	Redux Toolkit, Context API, React Hook Form, Zod Validation, Svelte Stores
Networking & APIs:	RESTful API Integration, Axios, Fetch API, Token-based Authentication, Postman
Build & Tooling:	Vite, Webpack, Git, GitHub, GitLab CI/CD, Chrome DevTools, Lighthouse, Figma

PROFESSIONAL EXPERIENCE

Techstuff Private Limited — **May 2025 – Present**
Frontend Engineer — Indore, India

- Engineered core frontend features for enterprise SaaS client platforms using React.js, Next.js, TypeScript, and Tailwind CSS.
- Developed an internal design system of 25+ accessible components (modals, dropdowns, table grids, inputs) adopted across team projects.
- Structured client-side application state using Redux Toolkit and React Context, ensuring modular separation of UI and business logic.
- Improved initial page load speeds and runtime responsiveness through route-based code splitting, lazy loading, and asset optimization.
- Integrated complex REST API endpoints, handling authentication tokens, pagination cursors, debounced searches, and error states.
- Participated in code reviews and sprint planning, maintaining high standards for code readability, component reusability, and testing.

Techstuff Private Limited — **Feb 2025 – May 2025**
Frontend Developer Intern — Indore, India

- Transformed Figma design mockups into pixel-perfect, mobile-first responsive web templates using React.js and Tailwind CSS.
- Integrated backend REST endpoints for authentication and user profiles, implementing feedback toasts and loading spinners.
- Tested UI components across desktop and mobile browsers (Chrome, Edge, Safari, Firefox) to fix layout bugs and ensure consistency.

KEY PRODUCTION PROJECTS

Mercanis — B2B Procurement Management Platform
Enterprise SaaS Solution (React 18, Next.js, TypeScript, Tailwind CSS)

- Built the supplier evaluation and procurement workflow interfaces, enabling enterprise teams to compare quotes and track orders.
- Created responsive, high-density data tables supporting multi-column sorting, debounced text search, and virtualized scrolling.
- Implemented clean modal dialogs, drawer menus, and toast notifications to deliver smooth feedback on user interactions.

Payroll & Employee Administration System
Internal Enterprise Portal (Next.js, TypeScript, Tailwind CSS, REST APIs)

- Built frontend modules for employee onboarding, leave management, department directories, and salary disbursement tracking.
- Designed secure client-side authentication mechanisms with automatic session verification and route-guard middleware.
- Constructed summary analytics cards and data filters giving team managers quick visibility into employee attendance records.

EduMiracle — Educational Institute ERP Portal
Full-Stack EdTech Web Application (React.js, Next.js, Tailwind CSS)

- Constructed responsive student registration, fee ledger, and classroom attendance tracking views for institute administration.
- Integrated interactive exam practice modules featuring timer-based question palettes, auto-saving answers, and scorecards.
- Ensured complete responsive behavior across all screen breakpoints from mobile phones to high-resolution desktop monitors.

EDUCATION

Bachelor of Technology in Computer Science & Engineering — **2020 – 2024**
Barkatullah University Institute of Technology (BUIT), Bhopal — **CGPA: 7.89 / 10**
